# ABOUT US

Living in the urban jungles suppresses the natural instincts of domesticated doggos. This brings up their stress and anxiety levels. **A well-balanced dog needs regular socialisation, mental stimulus and physical activity to manage the stress and anxiety.** This also boosts their confidence and helps them be well-adjusted.

Paw'dventure is striving to bring about the awareness toward these needs. We let the dogs out! **Our camps, India Trip and Sailing activities are curated to encourage socialisation, mental stimulation and physical activities for our doggos.** Our dedicated team of Canine behaviourists, Trainers and Volunteers help the pawrents reconnect with their fur babies like never before.
